

## Give Me a Friendly, Natural Hand-shake

an' a friendly natural tobacco. Keep yo' put-on airs an' "sauced-up" tobaccos for the fellow that likes nut sundaes better than home made pie—

So says a friend of ours named Velvet Joe. And he just about hits the nail on the head.

Velvet is made for men who think there's no smoke like real tobacco. If you are that sort of man, listen:

Velvet was born in old Kentucky, where more than one good thing comes from. It was raised as carefully as any other Kentucky thoroughbred. But the real secret of Velvet's friendly qualities is its slow natural ageing in wooden hogsheads. Ageing in the wood never hurt anything—and least of all, tobacco.

And so we say, Velvet is good tobacco—nothing more or less. It runs second to none.

The picture of the pipe on the tin needn't keep you from rolling a jim-dandy cigarette with Velvet.

*Liggett & Myers Tobacco Co.*

A full attendance is desired.  
JOHN H. CORRY,  
Precinct Chairman.  
ORSON BRYANT,  
Precinct Secretary.

## BETTER DEAD

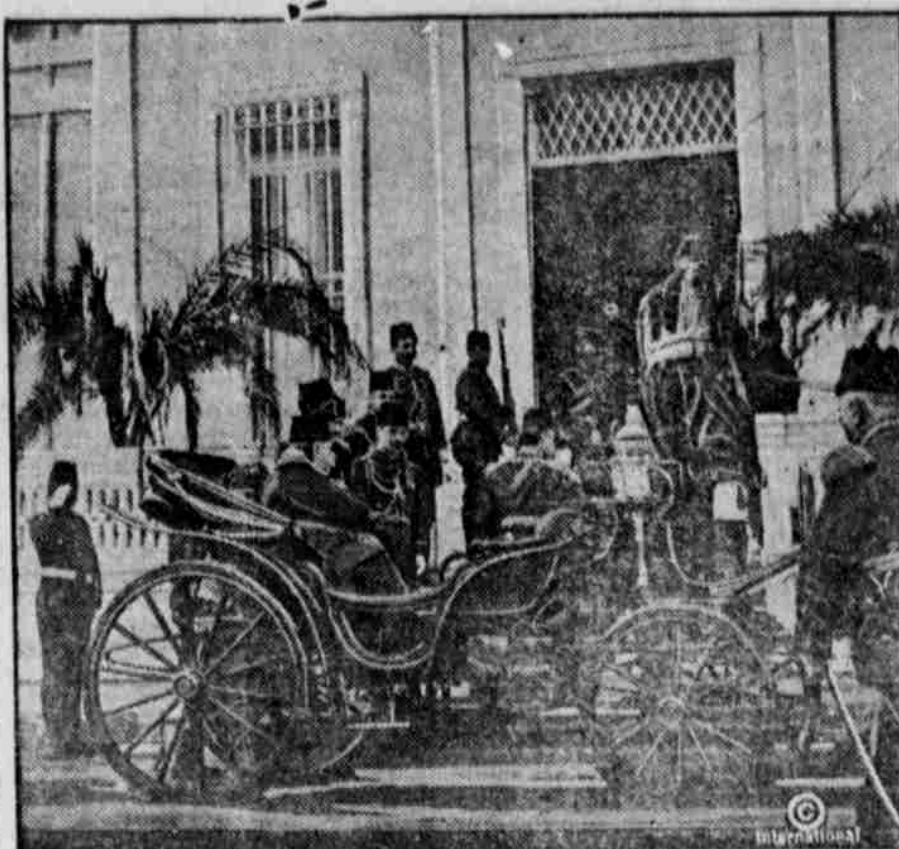

Life is a burden when the body is racked with pain. Everything worries and the victim becomes despondent and downhearted. To bring back the sunshine take

**GOLD MEDAL  
HARLEY OIL**

The national remedy of Holland for over 200 years; it is an enemy of all pain resulting from kidney, liver and uric acid troubles. All druggists, three sizes. Look for the name Gold Medal on every box and accept no imitation.

FOUND.—A stray pet ewe. Owner may get same by paying for this notice.—W. R. Palmer.—Adv.

## SULTAN TAKES ENFORCED VACATION

The sultan of Turkey, though he has not officially abdicated, is taking a "vacation" in Asia Minor at the suggestion of representatives of the allied nations in Constantinople. The photograph shows him arriving at the foreign office to receive what amounted to his deposition.

## ARE STILL URGING FOREIGN CHARITY

Pres. Wilson and Secretary Glass  
Continue to Urge Huge Benefaction on Congress.

Washington, Feb. 17.—President Wilson and Secretary of the Treasury Glass are still urging Congress to grant \$150,000,000 for foodstuffs for the peoples of certain parts of Europe especially for Poland, Austria and Armenia. Secretary Glass appeared before the Ways and Means committee to renew arguments for granting this sum and the President has addressed a letter to Secretary Glass in which he holds that "this prosperous Republic" ought to give the proposed assistance.

What action Congress will take in the matter is not yet finally determined. Strong opposition to granting more funds to Europe exists in House and Senate both among Republicans and Democrats. For this there are several weighty reasons. One of them is the tremendous burden of taxes from which the country is already suffering. Another is lack of confidence on the part of Congress in the administrative capacity of the officials of the administration to see to it that the money advanced whether in cash or credits, would be handled judiciously, wisely and impartially. Another very strong reason is the fact that while the cost of living is soaring in this country and has been soaring for months and months the administration has done nothing effective to prevent it and shows no signs of doing anything effective and to send more foodstuffs to Europe at the public expense would simply add to the high cost of living in the United States and would be felt by the public here both through the higher taxes and higher prices for the needs of life. Still another reason is found in the swollen estimates for expenditures which the Administration has sent to Congress, though knowing that a \$3,000,000,000 deficit at the end of the fiscal year stares the treasury squarely in the face. It is unquestionably true that if the Administration were showing evidence of any disposition whatever to hold down the demands on Congress for general expenditures, there would be more willingness in Congress to grant the \$150,000,000. Members of Congress sympathize with the suffering of some of the European peoples just as every thinking man or woman sympathizes with them but a great many of the members feel that if the United States is to be drawn upon further to help Europe it should be done through the private contributions of those citizens of this country who feel able to make such contributions. Whether the great body of struggling tax payers in this country should be required to contribute still further to Europe and not have any voice in the matter is obviously a question which is not to be settled by a wave of the hand or a flourish of the pen.

## MAY HOLD BASKET BALL TOURNAMENT HERE NEXT WEEK

Coach Jack Christensen returned from Circleville the first of this week, and has been trying to rally his basketball players and get them in shape for the league games of the southern division. Two of the first team boys have undergone a siege of "flu" and one has a bad leg, which does not tend to improve the chances of success.

There was talk of a game with Murdock at Beaver tomorrow night, but the time is too short to permit of an exchange of games all the way round now, and it is probable that the championship of the Southern division will be decided in a tournament to be held

## DIXIE POWER COMPANY EXPLAINS INTERRUPTIONS

As the Dixie Power Company has secured many stockholders in Iron County, we feel they are entitled to know the cause of recent unfortunate interruptions in service.

The failure at midnight on Wednesday was caused by an insulator having been shot off our line in the hills south of Enterprise, the current burning the top wire in two, thereby causing a dead ground.

The storm that was raging at the time prevented this line from being cleared up until Thursday afternoon.

During Thursday night an intermittent ground came on, causing momentary interruptions. By running from 10 to 15 per cent below normal voltage, we were able to keep current on until Sunday afternoon when a complete failure occurred.

The mountain section of the Cedar-Enterprise line was patrolled on Friday and Saturday without locating the leak. During this period the storm was so severe that men and horses could hardly face it.

This failure of an insulator was what is known as a "pin-leak" being a small puncture in the insulator where the line wire is tied around it. On large capacity systems this can be "burnt off" but our station capacity is not adequate to do this all at once. The result is a leak or current, which gradually burns the pin until it is visible.

The bottomless condition of roads and range contributed greatly to the slow movement of men.

A single line and station cannot be commercially constructed in a manner that gives continuous service.

This is not a case of the old adage, "What can't be cured must be endured," but the modern application of, "What can't be endured, must be cured."

We are striving to get No. 2 plant completed and the loop line around Pine Mountain completed to the end that Iron County can be served from two directions.

We believe that the large majority of our customers realize that when service is cut off so is our revenue, plus a very heavy extraordinary expense incurred in restoring service.

We trust this explanation will be taken in the spirit given, i. e., not an excuse for the failures but a statement of facts.

Respectfully,  
DIXIE POWER COMPANY.

## ANDERSON DISCUSSES THE FUTURE OF CEDAR CITY

A. G. Anderson of Cedar City expects that about 500 new inhabitants will be added to the 2500 inhabitants of Cedar City during the coming year. Last summer, he states, the city grew so rapidly it was impossible to get sufficient building material for the houses planned. The season's automobile tourists will bring, it is expected, some 30,000 persons through the town, he declares, over the Arrowhead Trail and since Cedar City is practically the gateway to all the scenic wonders of southern Utah, Mr. Anderson declares that the growth of the town is an assured fact. The citizens of the southern Utah town expect to build a \$150,000 hotel, the excavations having already been started, and a resort at Puffer lake, 76 miles away, is now talked of. Mr. Anderson is manager of the Southern Utah Bee and Honey company with headquarters at Cedar City. He has been in Salt Lake attending the Utah Beekeepers' association convention at the Hotel Utah.—Salt Lake Herald.

in Cedar City next week. If this program is adopted, there will be the teams from Dixie and Murdock and from the Milford High here to compete for championship honors, Milford having won out in the north half of this division, would play the winners in the south half.

## M. I. A. CONJOINT MEETING NEXT SUNDAY EVENING

Following is the program arranged for the M. I. A. conjoint meeting to be held in the tabernacle next Sunday evening:

Congregational singing.  
Prayer.  
Vocal solo, Annette Bettenson.  
Reading, "Gunga Din," Kipling, by Libbie Gower.  
Vocal solo, Ottoson Luke.  
Talk, Richard A. Thorley.  
Piano duet, Bernella Gardner and Inez Woodbury.  
Reading, Jasmine Lewis.  
Solo, Mr. Nichols.  
Congregational singing.  
Prayer.  
Service begins at 8:00 p. m.

## OBSERVE NEXT THURSDAY AS "AT HOME" EVENING

Stake President H. W. Lunt calls attention to the fact that next Thursday evening being the first Thursday in the month, should be observed by the Saints of this stake as "At Home" evening. The evening when all members of the family should make it a rule to be at home and assemble about the hearth in good, old-fashioned worship—reading from the sacred word, singing the songs of Zion and with prayerful hearts returning thanks to God for His many blessings.

It is a mighty good custom and one which ought not to be permitted to become extinct in the homes of Latter-day Saints.

## REPUBLICAN LADIES WILL ORGANIZE CLUB IN CEDAR

A meeting of the Republican ladies of Cedar City is hereby called to convene in the Library Auditorium next Tuesday evening, Mar. 2, at 8 p. m., for the purpose of organizing a Republican Ladies' Club for Cedar City, and for the transaction of such other business as may properly come before said meeting.

A full attendance is earnestly desired.

MRS. ADA WOOD WEBSTER,  
Ladies' County Chairman.

True Sport.  
Our idea of a true sport is one who'll give the proceeds of a jack-pot to make some widow's baby happy.—Detroit Free Press.

## MICKIE SAYS

MICKIE, HERE'S A NEWS ITEM TO HELP FILL UP. "JOHN WHOOSIT, OUR ENTERPRISING MAIN STREET MERCHANT, SPENT LAST WEEK IN THE METROPOLIS PURCHASING FINE STOCK OF GOODS FOR HIS RAPIDLY GROWING TRADE."

## Real Estate For Sale

360 acres brush land fithin a mile of the Grimshaw farm, which produced \$90 worth of alfalfa seed per acre last year without irrigation. A veritable gold mine for some one who has the energy and resources to harness it. Price \$13.50 per acre. Act quick. It will not go begging long at this price.

### APARTMENT HOUSE FOR SALE

Pioneer Apartments on North Main Street is being offered at a ridiculously low price in order to close up an undivided estate. This property will pay 20 per cent on the investment.

### SPLENDID MODERN HOME

A large modern home, well located, is being offered at a very modest figure compared with what you will pay for building such a home now. We are authorized to offer the furnishings of this home free, if taken within thirty days. It cannot last long.
